

22<sup>nd</sup> July 2021

Dear Parent/Carer,

We are at the end of a challenging school year and have really worked together to support our children to continue with their learning. Thank you for continued support during this time. We are lucky to have parents that are determined to support their children's learning.

There have been some enquiries about resources to support with Maths over the summer holidays. I therefore wanted to make you aware of links and resources that you can use at home, should you wish, to support your children further.

White Rose Maths is the Maths scheme that we follow in school and therefore your children will be familiar with this format. On the White Rose Maths website, there is a parents/carers section, which contains the following free resources:

- Children's help videos for all age groups
- Free printable workbooks linked to a range of concepts for all age groups
- Parent help videos from 'Maths with Michael'

The link to access all of these free resources is: <https://whiterosemaths.com/for-parents/> . Alternatively, you can google 'White Rose Maths parents'.

White Rose Maths have also partnered with the supermarket Morrisons and are offering free printed children's workbooks in their stores. To find out more about this scheme please visit the website:

<https://whiterosemaths.com/morrison/> .

In addition to all of the free White Rose Maths resources and videos, there are additional videos and activities on the BBC Bitesize website. Once you visit the website, you must select your child's year group and 'Maths' and you can access the relevant lessons linked to content taught this year. The link for this is here:

<https://www.bbc.co.uk/bitesize/this-terms-topics> . Alternatively, you can google 'BBC Bitesize this term's topics'.

As you know, we use Times Table Rock Stars to support with learning times tables and this can still be accessed using your child's login and password throughout the holidays: <https://trockstars.com/> .

I hope you have a lovely summer and once again thank you for continuing to support your children with their learning.

Miss K Ingham  
Maths coordinator
